- Updated to include new and revised practice standards.

Index of Conservation Practice Standards –
Numerical

- Updated to include new and revised practice standards.

Section IV. B. Conservation Practices

Agrichemical Handling Facility (309) Standard and
Supporting Documents

- Updated to reflect changes in the national standard.
- Updated SOW

Integrated Pest Management (595) Job Sheet

Updated the Integrated Pest Management (595) Job Sheet.

- Modified the "Instructions" tab to allow for more optimal printing. The instructions along with screen captures are intended to be printed out to assist the user in completing the other tabs in the workbook.
- Made modifications to the "Practices & Techniques" tab that summarizes the mitigation point values that are derived from the two national IPM Technical Notes. In some cases there are mitigation points assigned for IPM techniques that are now incorporated directly within WIN_PST and result in lowering of the hazard values assigned to the soil and pesticide interaction.

Future modifications of the "Practices & Techniques" tab are planned to better align the list of practices with the current Illinois eFOTG.

Illinois NRCS Pesticide Application Record Form

- A pesticide application record form was developed that can be used by clients to document pesticide applications and conditions under which the pesticides were applied. The form should be used to document CPS 595 IPM activities.
